EXTRA-CURRICULAR:

Won district level 3rd Prize in Basketball conducted by CM Trophy.

PROJECTS:

<u>Out-pass Application - 2022</u>

To develop a Flutter application for student out-pass are helps to students can go outing or native, they just fill the out-pass details. It reduces the students time to get the signature of Faculties. It will reduce the Paperwork. Flutter is an open-source UI software development kit created by Google. It is used to develop cross platform applications from a single codebase for any web browser, Fuchsia, Android, iOS, Linux, macOS, and Windows. Dart Programming language are used in this application and Firebase (Database) are used to store the information.

<u>IBM using Web Application</u>

To develop a Personal blog web application using IBM cloud. I created a dynamic platform for users to publish the blog and manage their personal content using HTML, CSS and JS. The project involved integrating IBM Cloud and for database storage, ensuring scalability and reliability.
